GICS Sector Allocation

Evolution+ Composite: Seeks to achieve long-term capital appreciation. The investment portfolio invests opportunistically and selects companies with compelling upside potential, pricing inefficiencies, and/or event driven opportunities. Key risks include the general risks of common stock, fixed income, and preferred stock investments and specific risks due to the concentration of the portfolio within specific securities and sectors. Additional risks include that security prices may decline, and the strategy may experience loss of principal. The Evolution+ composite is compared against a benchmark comprised of 100% Russell 1000 Growth Index. The Evolution+ composite has a minimum of \$25,000. The Evolution+ composite was inceptioned on May 1, 2024.

Benchmarks:

Russell 1000 Growth Index - The Russell 1000 Growth Index is an index of approximately 1,000 of the largest companies in the U.S. that show growth properties.

S&P 500 Index - The S&P 500 Index is a market-capitalization-weighted index of the 500 largest U.S. publicly traded companies.

Little House Capital, LLC ("Little House") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income. The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1%. The model fee was calculated by reducing the gross returns by the highest tier of the current composite fee schedule. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. The investment management fee schedule for the composite is tiered at: 1.00% on the first \$1,000,000, 0.90% on the next \$1,000,000, 0.80% on the next \$3,000,000, and 0.70% on assets over \$5,000,000.
