Performance Update:

We are pleased to share an update on the performance of our investment products through March 31, 2026. Our team's disciplined approach helped deliver favorable relative results across our large-cap equity products. The performance figures below reflect YTD gross returns, YTD net returns, and YTD benchmark returns respectively. The attached fact sheets and GIPS Reports provide both gross and net returns for a more comprehensive view:

Dividend Income+ (Value Product): 1.8% gross, 1.5% net, (benchmark: -1.8%)

Core+ (Blend/S&P 500 Product): -2.1% gross, -2.3% net, (benchmark: -4.9%)

Absolute Opportunity+ (Growth/Blend Product): -4.6% gross, -4.8% net, (benchmark: -7.7%)

Evolution+ (Growth Product): -9.5% gross, -9.7% net, (benchmark: -10.4%)

These results reflect our ongoing commitment to strategic stock selection, risk management, and tax efficiency. While we're pleased with these results, we remain focused on continuous improvement and prudent downside protection as market dynamics evolve and experience volatility.

U.S. equity markets remained volatile throughout the start of the year. January and February showed investors shifting focus from growth-driven names (which have seen great returns for the past few years), into value-driven names. This shift in sentiment was influenced by uncertainty around current valuations surrounding companies tied closely to Artificial Intelligence. Additionally, the US-Iran conflict, which ramped up at the end of February, increased volatility causing oil prices to surge and markets to decrease. The conflict's timeline remains uncertain as sentiment shifts rapidly following every reported development.

Attached are our Q1 2026 Factsheets, GIPS Reports, and detailed performance analyses. We encourage you to review these materials and reach out with any questions or insights you may have. Thank you for your continued confidence and partnership.

Little House Capital, LLC ("Little House") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income. The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1%. The model fee was calculated by reducing the gross returns by the highest tier of the current composite fee schedule. Benchmarks are as follows: Dividend Income+: 50% Russell 1000 Value/ 50% S&P500 , Core+:S&P500, Absolute Opportunity+: 50% Russell 1000 Growth/ 50% S&P500, Evolution+: Russell 1000 Growth. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. The investment management fee schedule for the composite is tiered at: 1.00% on the first \$1,000,000, 0.90% on the next \$1,000,000, 0.80% on the next \$3,000,000, and 0.70% on assets over \$5,000,000.

Firm & Strategy Overview

GICS Sector Allocation

Dividend Income+ Composite: Seeks to achieve reasonable income with the potential for capital appreciation. The investment portfolio aims to capture a dividend yield that exceeds the yield of the S&P 500 index and selects companies based on fundamental factors and underlying free cash flow metrics. Key risks include the general risks of common stock, fixed income, and preferred stock investments and specific risks due to the concentration of the portfolio within specific securities and sectors. Additional risks include that security prices may decline, and the strategy may experience loss of principal. The Dividend Income+ composite is compared against a custom blended benchmark comprised of 50% S&P 500 Index & 50% Russell 1000 Value Index. The custom benchmark is calculated by weighting the respective index returns on a daily basis. The Dividend Income+ composite has a minimum of \$25,000. The Dividend Income+ composite was created in May 2018 and inception on May 31, 2018.

Benchmarks:

Russell 1000 Value Index - The Russell 1000 Value Index measures the performance of the large-cap value segment of the U.S. equity universe. It includes those Russell 1000 companies with lower price-to-book ratios and lower expected and historical growth rates.

S&P 500 Index - The S&P 500 Index is a market-capitalization-weighted index of the 500 largest U.S. publicly traded companies.

NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.

NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.

* Performance is for a partial period from June 1, 2018 to December 31, 2018.

Period - As of 12/31/2025	Gross Returns	Net Returns	Custom Blended Benchmark Returns
1-Year	17.70%	16.53%	16.94%
5-Year	13.25%	12.13%	12.91%
Since-Inception	12.92%	11.80%	12.52%

*Since-inception performance is calculated for the period beginning June 1, 2018.

Little House Capital, LLC ("Little House") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request. Little House claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Little House has been independently verified for the periods January 31, 2018 through December 31, 2025. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income. The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1%. The model fee was calculated by reducing the gross returns by the highest tier of the current composite fee schedule. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. The investment management fee schedule for the composite is tiered at: 1.00% on the first \$1,000,000, 0.90% on the next \$1,000,000, 0.80% on the next \$3,000,000, and 0.70% on assets over \$5,000,000. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Absolute Opportunity+ Composite: Seeks to achieve long-term capital appreciation. The investment portfolio invests opportunistically and selects companies with compelling upside potential, pricing inefficiencies, and/or event driven opportunities. Key risks include the general risks of common stock, fixed income, and preferred stock investments and specific risks due to the concentration of the portfolio within specific securities and sectors. Additional risks include that security prices may decline, and the strategy may experience loss of principal. The Absolute Opportunity+ composite is compared against a custom blended benchmark comprised of 50% S&P 500 Index & 50% Russell 1000 Growth Index. The custom benchmark is calculated by weighting the respective index returns on a daily basis. The Absolute Opportunity+ composite has a minimum of \$25,000. The Absolute Opportunity+ composite was created in January 2018 and inception on January 31, 2018.

Benchmarks:

Russell 1000 Growth Index - The Russell 1000 Growth Index is an index of approximately 1,000 of the largest companies in the U.S. that show growth properties.

S&P 500 Index - The S&P 500 Index is a market-capitalization-weighted index of the 500 largest U.S. publicly traded companies.

Little House Capital, LLC ("Little House") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request. Little House claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Little House has been independently verified for the periods January 31, 2018 through December 31, 2025. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income. The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1%. The model fee was calculated by reducing the gross returns by the highest tier of the current composite fee schedule. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. The investment management fee schedule for the composite is tiered at: 1.00% on the first \$1,000,000, 0.90% on the next \$1,000,000, 0.80% on the next \$3,000,000, and 0.70% on assets over \$5,000,000. GICS Sector Allocation

Evolution+ Composite: Seeks to achieve long-term capital appreciation. The investment portfolio invests opportunistically and selects companies with compelling upside potential, pricing inefficiencies, and/or event driven opportunities. Key risks include the general risks of common stock, fixed income, and preferred stock investments and specific risks due to the concentration of the portfolio within specific securities and sectors. Additional risks include that security prices may decline, and the strategy may experience loss of principal. The Evolution+ composite is compared against a benchmark comprised of 100% Russell 1000 Growth Index. The Evolution+ composite has a minimum of \$25,000. The Evolution+ composite was inceptioned on May 1, 2024.

Benchmarks:

Russell 1000 Growth Index - The Russell 1000 Growth Index is an index of approximately 1,000 of the largest companies in the U.S. that show growth properties.

Year End	Total Firm Assets (USD) (Millions)	Composite Assets (USD) (Thousands)	Number of Portfolios	Composite Returns Gross	Composite Returns Net	Benchmark Returns	Composite Dispersion	Composite 3-Yr Std Dev	Benchmark 3-Yr Std Dev
2025	673.03	8,195.50	22	22.51%	21.29%	18.55%	0.35%	N/A ²	N/A ²
2024*	639.94	4,537.32	11	26.43%	25.59%	25.00%	N/A ¹	N/A ²	N/A ²

NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.
 NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.
 * Performance is for a partial period from May 1, 2024 to December 31, 2024.

Period - As of 12/31/2025	Gross Returns	Net Returns	Benchmark Returns
1-Year	22.51%	21.29%	18.55%
Since-Inception	30.02%	28.73%	26.61%

*Since-inception performance is calculated for the period beginning May 1, 2024.
 *Performance is annualized for periods greater than 1 year.

Little House Capital, LLC ("Little House") is a registered investment adviser with United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm's full list of composite descriptions is available upon request. Little House claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Little House has been independently verified for the periods January 31, 2018 through December 31, 2025. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income. The currency used to express performance is USD. Gross-of-fee returns are reduced by trading costs. Net-of-fee returns are calculated using a model fee of 1%. The model fee was calculated by reducing the gross returns by the highest tier of the current composite fee schedule. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. The investment management fee schedule for the composite is tiered at: 1.00% on the first \$1,000,000, 0.90% on the next \$1,000,000, 0.80% on the next \$3,000,000, and 0.70% on assets over \$5,000,000.
